

PLASTIC CLOSURES LTD - LINERS

FACED LINERS

PCL CODE	CALIPER SIZE	DESCRIPTION	CAP SIZE AVAILABILITY	PURPOSE CONTAINERS	USES AND RESISTANCES
EAM	1.50mm	Closed Cell LDPE foam, Slip Aluminium Facing, PET	28mm to 48mm	Universal	Excellent chemical resistances to acids, bases and alcohols
EPE	1.00mm / 2.00mm	Closed Cell LDPE foam	20mm to 80mm	Universal	Excellent chemical resistances to acids, bases and alcohols
EPT	1.00mm / 2.00mm	Closed Cell LDPE foam with PET Facing	20mm to 80mm	Universal	Excellent chemical resistances to acids, bases and alcohols
ESX	1.50mm	Closed Cell LDPE foam, Saran PVDC, PE	28mm to 45mm	Universal	Excellent chemical resistances to acids, bases and alcohols
F217	1.25mm	Closed Cell LDPE foam with LDPE Facing Both Sides	20mm to 80mm	Universal	Excellent chemical resistances to acids, bases and alcohols
SRN	1.00mm	Woodpulp, White Base Coating PVDC 40UP	28mm to 40mm	Universal	Absorbs certain acids, bases and alcohols, product testing advised

PRESSURE SENSITIVE LINER

PSL	0.50mm	Under Pressure Cell Liner that Seals to the Container after 24 Hours	38mm to 63mm	Universal	Liquid Resistance, Chemically Inert, Super-Resistance to Bleaches, Peroxides, Peracetic Acids and Pesticides
-----	--------	--	--------------	-----------	--

O'RINGS SEALS

OPE	4.00mm	Closed cell LDPE foam, Hole Punched	60mm	Universal	Excellent chemical resistances to acids, bases and alcohols
WSH	1.00mm	Closed cell LDPE foam, Hole Punched	38mm Z Cap	Universal	Excellent chemical resistances to acids, bases and alcohols

VENTING (THREAD VENTING)

PNT	1.00mm	Membrane Faced with a Point Vent Hole	28mm to 63mm	Universal	Liquid Resistance, Chemically Inert, Super-Resistance to Bleaches, Peroxides, Peracetic Acids and Pesticides
VPP	1.00mm	PE foam, ePTFE membrane, Venting Hole, Thread Vent, Yellow backing	28mm to 63mm	Universal	Higher Liquid Resistance, Chemically Inert, Super-Resistance to Bleaches, Peroxides, Peracetic Acids and Pesticides

VENTING INDUCTION HEAT SEAL

CVI	1.00mm	Cardboard backing, Polymer melt layer, Aluminium layer, Vent Hole	28mm to 63mm	PE	Liquid Resistance, Chemically Inert, Super-Resistance to Bleaches, Peroxides, Peracetic Acids and Pesticides
PNI	0.25mm	Polymer melt layer, Aluminium layer, Vent Hole	38mm	PE	Liquid Resistance, Chemically Inert, Super-Resistance to Bleaches, Peroxides, Peracetic Acids and Pesticides

All Liners are Food Contact Approved / Container Materials - PET = Polyester, PE = Polyethylene, PVC = Polyvinyl, LDPE = Low Density Polyethylene, PS = Polystyrene, G = Glass, ABS = ABS, PC = Polycarbonate

PLASTIC CLOSURES LTD - LINERS

INDUCTION HEAT SEAL PLAIN

PCL CODE	CALIPER SIZE	DESCRIPTION	CAP SIZE AVAILABILITY	PURPOSE CONTAINERS	USES AND RESISTANCES
205	1.20mm	Plupboard, Dot Pattern Aluminium Foil	28mm to 63mm	PE, Glass	For dry and multi-use wet products, Food Approved
206	0.83mm	Plupboard, PET film, LDPE, Aluminium Foil	28mm to 38mm	PE, Glass	For dry and multi-use wet products, Food Approved
605	1.20mm	Plupboard, Dot Pattern Aluminium Foil, PET, Melinex	28mm to 50mm	PET, PVC	For dry and multi-use wet products, Food Approved
720	0.30mm	One Piece foam backed Induction Liner, PET, Polyofin Foam	63mm to 80mm	PET, PVC	For dry and multi-use wet products, Food Approved
790	1.00mm	Plupboard, Dot Pattern Aluminium Foil, PET, PE	38mm to 63mm	PE	For dry and multi-use wet products, Food Approved
960	1.00mm	Plupboard, Dot Pattern Aluminium Foil, PET, Melinex	63mm	PET, PVC	For dry and multi-use wet products, Food Approved
DAG	0.80mm	Chromo Board, Gold Aluminium Foil	80mm	Universal	Used on Food Products for Hot Chocolates, Coffee and Soups
S75	1.00mm	White Pulpboard, Aluminium Foil, PET	28mm to 45mm	PE	Typical Applications includes innerseals for over-the-counter medications and pharmaceuticals, windshield washer solution, anti-freeze, motor oils, gasoline additives, household cleaners, insecticides, herbicides

INDUCTION HEAT SEAL RANDOM PICTROGRAM

250 (R)	1.20mm	Pulpboard, PET, Hatch Pattern, Aluminium Foil, PET, LDPE	28mm to 63mm	PE	For dry and multi-use wet products including agrochemicals
650 (R)	1.20mm	Pulpboard, PET, Hatch Pattern, Aluminium, Gold PE Foil, PET	28mm to 63mm	PET, PVC	For dry and multi-use wet products including agrochemicals
735 (R)	1.00mm	Pulpboard, PET, Dot Pattern Printed Foil, PET, LDPE	63mm	PE	For dry and multi-use wet products including agrochemicals

INDUCTION HEAT SEAL PULL TABS

TTE	1.20mm	White Pulpboard, Aluminium layer, PET	28mm	PET, PVC	Typical applications include innerseals for edible oils, automotive products , water and non-carbonated beverages, shampoos and conditioners.
TTF	1.20mm	White Pulpboard, Aluminium layer, PET	28mm to 40mm	PP, PE	Typical applications include innerseals for used in conjunction with dispensing closures and application include pharmaceuticals, drugs, fruit juices, dairy products, water, glass cleaners, anti-freeze, agrichemicals

All Liners are Food Contact Approved / Container Materials - PET = Polyester, PE = Polyethylene, PVC = Polyvinyl, LDPE = Low Density Polyethylene, PS = Polystyrene, G = Glass, ABS = ABS, PC = Polycarbonate
